"SOMEWHERE, SOMETHING
INCREDIBLE IS WAITING TO BE
KNOWN." - Carl Sagan

I came across this amazing quote quite suddenly when I was looking for some information and realized how relevant it is for all of us: students, parents and faculty members. There is never any point in the life of a person when he can sit back and say. "There is nothing more to learn, I can relax with the comforting thought that the universe around me is an open book. I know it all."

Education is not just about the subjects that are learnt and taught. Becoming educated is not restricted to being in college, gathering certificates and feeling proud of oneself. It is a lifelong exercise that can be unbelievably exciting if only we wish to jump onto the train of experience and take a trip to every conceivable ideation taking place across the globe.

Besides, I believe that students become truly educated, when we, as educators ensure that they have a channel of enriching their positive experiences continuously, and CONVERGENCE – The IPS COLLEGE Magazine is one of such many vehicles that our IPSians are blessed with. These experiences develop IPSians creativity and imagination and leads to something that is often thought to be more important than knowledge. Creativity and imagination make our students grow up to be productive adults who then arrive as citizens of the world ready to make their own great contribution to mankind.

"Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand." - Albert Einstein

My message to the Faculty members, Staff, Students and esteemed Parents of IPS COLLEGE OF TECHNICAL EDUCATION, through CONVERGENCE is to dedicate this year to a correct understanding of what education really means and let us all benefit from this understanding.

Many Congratulations and Best Wishes to all the students of the Editorial Committee, and my Faculty and staff members for this excellent symbiosis of Creativity and Knowledge – CONVERGENCE!

INTERNS SPEAK

My BFSL internship polished my collaborative and interaction skills, along with negotiating with a win-win objective in mind so that I could transform my calls to actual sales of Credit Cards. I could also hone my sales closure through group presentation in selective corporate houses ensuring achievement of given targets

The credit goes to my esteemed college IPS Business School for providing me such an experiential learning opportunity at such an early stage of my career.

"BEGINNING OF AN IMPACTFUL
LIFE STARTS HERE,
AT IPS COLLEGE JAIPUR"

When we visited Singapore and a recently formed connection, who was from India, came to know that I am from IPS COLLEGE OF TECHNICAL EDUCATION, Jaipur, he shared about the enthusiastic IPS professor who inspired him to become a management professional.
That is impact.

I also met a recent graduate who couldn't stop talking about how many life lessons she had learned during her time at IPS and how it shaped her into the person she is today.
That is impact.

Stories like these are what inspired the theme for CONVERGENCE – The IPS COLLEGE Magazine. In this issue, you can read examples of the impact that our faculty and staff members have on students and alumni or see how our student body steps up time and time again to help others in their time of need.

Learn how IPS thought leaders gathered across disciplines commemorate pivotal moments in building the future leaders of our great nation.
That is impact.

I hope that reading this magazine will have an impact on and encourage you to have an impact on others. We may never know how much our words or actions influence the lives of those around us. But we can choose daily to be a positive influence on others in a way that could change the rest of their lives even if it's just within the walls of where you work.

Here at IPS, our students and staff members not only support and encourage each other but also unite in times of celebrations and reach out to check on each other when one of us is going through a tough time. That is impact. And that is IPS COLLEGE OF TECHNICAL EDUCATION

And CONVERGENCE is a Reflection!

CONVERGENCE - our College Magazine kindles the imagination of our learners. Cradled in the lap of innovation on the one hand and knowledge on the other, swaying from serious thinking to playful inventiveness, our fascinating

IPSians are brimming with a zeal for life empowering themselves with skills and creativity - captured in this piece of creative art.

I thank our Management, our Peerless Director Ma'am Mrs. Deepti Agarwal and our Effervescent source of Inspiration our Convener Sir, Mr. Sudhir Agarwal and congratulate all Faculty Members, Students and Staff and who used various mediums of expression to present their ideas in making this Magazine a treasured trove or all IPSians.

As long as our ideas are expressed and thoughts kindled we can be sure of learning, as everything begins with an idea.

I especially appreciate every student who shared the joy of participation in On-Job-Training, Co-curricular and Extracurricular activities along with their commitment to curriculum. That little extra we do, is the icing on the cake.

'Do more than belong- participate. Do more than care - help. Do more than believe - practice. Do more than be fair - be kind. Do more than forgive - forget. Do more than dream - work.'

Just as our infinite intellect makes us realize every horizon is scale able, CONVERGENCE is the recording of those testimonies which creates that belief in us that yes, the next horizon is definitely reachable.

Happy Reading!

A thought that has been enduring in mind when becomes real: is truly an interesting and exciting experience. This magazine was one such cherished work that had its root in the persuasion. Putting a magazine together was no cake walk. I, along with my fellow mate Prof. Bivash Mukherjee Sir and entire editorial Team have put in their tireless efforts to make this magazine stand out.

So here we have 'CONVERGENCE' the long awaited IPS College Magazine. As the name denotes it is a confluence of a kaleidoscope of ideas and thoughts leading on to further development and innovation in the pursuance of excellence. This magazine presents the hard work and dedication of Faculties and students.

I would like to thank Ms Deepti Agarwal Mam (Director) IPS College, Jaipur and Mr. Sudhir Agarwal Sir (Conveyner) IPS College, Jaipur and all my editorial team members and Faculty members for helping me pull this through. I express my considerable appreciation to all the authors of the articles in this magazine for devoting their generous amount of time and effort.

It is this willingness to share knowledge concerns and special insights with fellow beings that has made this magazine possible.

Reliance Industries Limited

I still remember the day when I was called at Reliance JIO - for my first-ever interview. Yes, I was nervous but also confident on my training at IPS BUSINESS SCHOOL. I successfully cracked all the rounds and got selected as an HR intern. The work culture was amazing and I became proficient in short listing profiles, conducting interviews, organizing induction programs, delivering presentations – almost the entire on-boarding process and was happy working 8 to 9 hours every day and my dedication was appreciated by the authorities.

Thank you, IPS BUSINESS SCHOOL for this life transforming experience.

Music Therapy

Imagine, you had a very hard day and your mind is fully stressed out, and that one song plays somewhere, yes, precisely the song that you considered at this moment and you were all smiles now because that's your "solace tune" and for a while there, you were living in the present, without a thought of the world? Happened? Of course, that's a common phenomenon. So, music has magical powers that the body removed the rust of stress and unlocked the grip of time from your head? Playing a certain song or an instrument causes a spell like effect to happen. Its almost impossible to find someone who doesn't feel a strong connection to music or sounds around. Why? In all probability, music touches our souls so profoundly on the grounds that we humans are born poetic and life has a rhythm and beats of its own. Music is a language of emotion where it can represent different feelings and barge into the soul with no boundaries or limitations. Now the real question is,

What is Music Therapy?

It's a spa for brain! It is a therapeutic approach that uses the music to improve and maintain the physical, psychological and spiritual well-being. This concept is fathomless and the more you dive in, the more musical pearls you can discover. I am a music enthusiast, to say the least and I believe every form of music or even sounds around us have healing powers. All we need to do is close our eyes and feel the sound within. Happy Exploring!

"YOGA IS A PHYSICAL, MENTAL AND SPIRITUAL PRACTICE THAT ORIGINATED IN ANCIENT INDIA"

Traditionally, this was a one-to-one transmission, but since yoga became popular in the West in the 20th century, group classes have become the norm.

In today's world of lock down and exhausting period of work from home hours, when we don't have the time to go to the gym or to perform other sports activities, one should perform yoga as it doesn't require any instrument and big spaces or enough time to perform and it is extremely rewarding for maintain a fit and healthy body.

I have a keen interest in yoga as it helps me in keeping my body fit both physically and mentally.

I perform plethora of yoga, but these are my top 5 picks

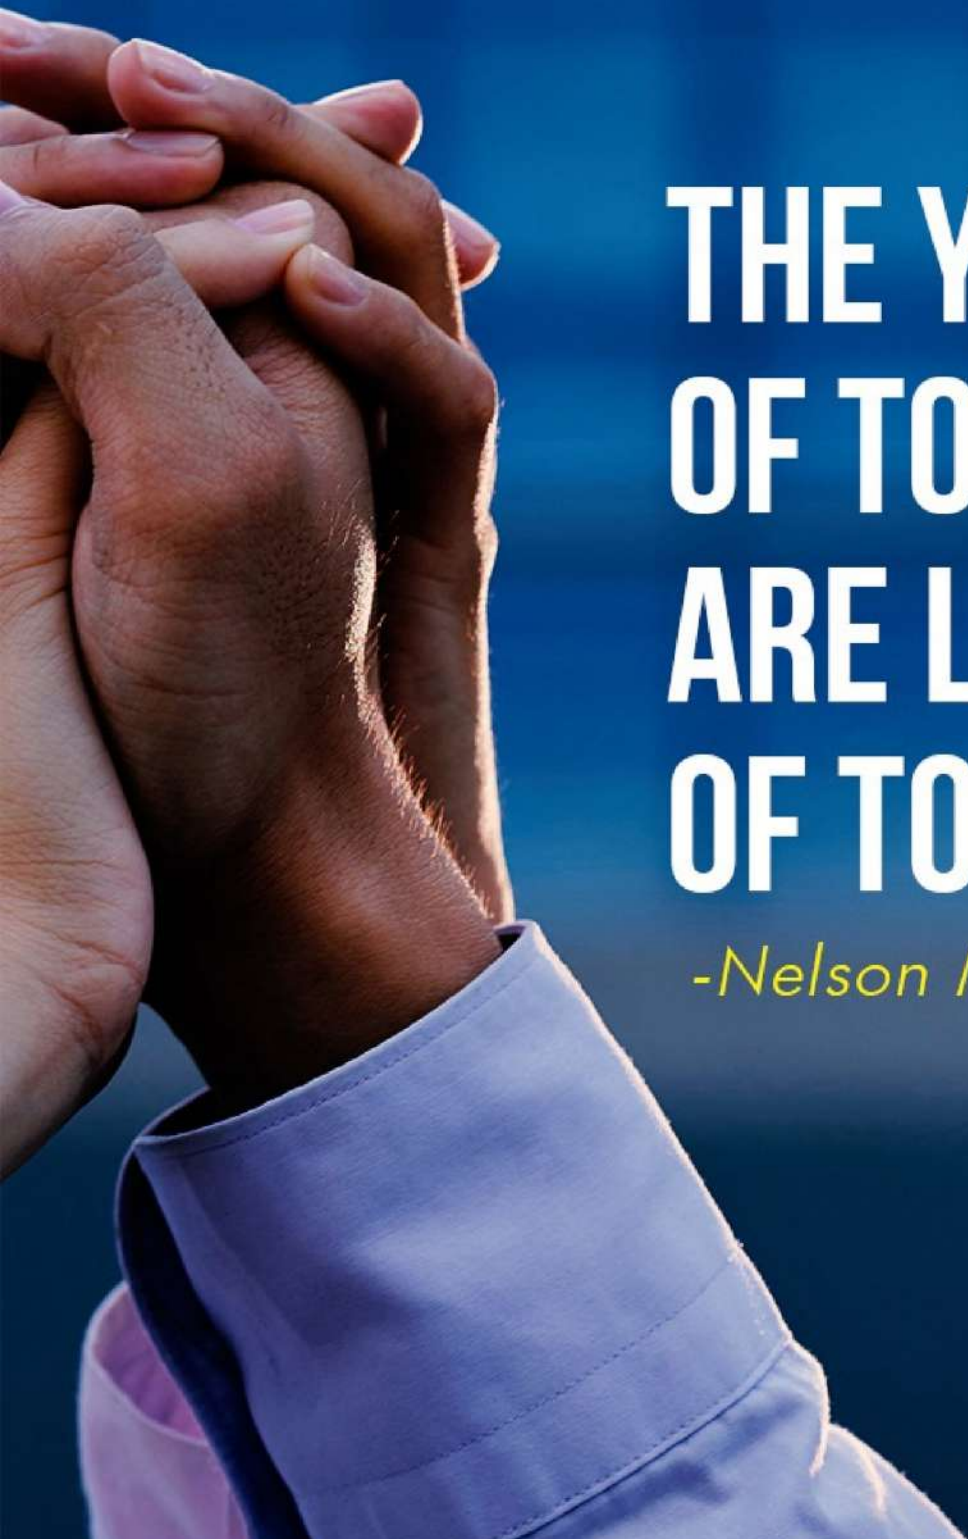

1. Suryanamaskar
2. Shirshasana
3. Sarvangasana
4. Dhanurasana
5. Chakrasana

Each of them has their own benefits, and all these in conjunction keeps a healthy balance in my body. I usually prefer to carry out my yoga in the morning time because it is very ideal time for performing yoga.

WHY TRAVEL MAKES YOU AWESOME?

If I look back at who I was before I began traveling and compare that to who I am presently, I would have to say that traveling has definitely made me a well-round and balanced person. It did not only help me in conversing with strangers but also to understand people on a deeper level. I have explored a lot of places mainly hill stations like Dharmshala, Dalhousie, Khajjiar, Kullu, Manali, Nainital, Mussoorie etc. Why hill stations? Because I feel as if I am in the lap of mother nature as I am surrounded by the high peaks covered with full greenery, and at the same time I feel peace being in the clouds. That's just how beautiful they are! I can only imagine how that life in the hill would be close to divinity. Not just the natural beauty, but people there are beautiful too, inside out. I was lucky to get the insights of their life and how different it is from the urban locality. I learnt how they survive in snowfall days where the food options are limited. Although, they face difficulties of natural calamities but are strongest and sweetest at heart and welcome every tourist very warmly. When I travel, I meet new people, explore the unexplored traditions and cultures, experience new things and I wish to travel all across India, not just for its scenic beauty but also to reconnect to the roots, meet strangers and make new friends all along the way. My future plan includes visiting North India, going around places like Kashmir and Ladakh, which tops my bucket list. Travelling makes me happy and feel alive. I am amazed to see God's creation and how heavenly and soul pleasing places exist! I hope you find your serenity in the scenic beauty around you!

PHOTOGRAPHY

Photography is about capturing a subject's true beauty, it's essential to understand their behaviour. Moment waits for no one so you must be ready to shoot in an instant. There is nothing in this world that does not have a decisive moment". Nature photography is a wonderful way to share the beauty and wonder of the natural world with others who don't have the opportunity to see a given subject first-hand. An obvious benefit of the art is raising awareness about and generating empathy for the special landscapes and species. But too much love can be a bad thing if landscapes are trampled and wildlife is frightened—all in the name of leaving only footprints.

IPS Entrepreneurs

THE IPS BUSINESS SCHOOL ALUMNI-DUO TURNED ENTREPRENEURS.

Elon Musk is an MBA graduate from The Wharton School. Phil Knight, the founder of Nike, did his MBA from Stanford. Deep Kalra and Sanjeev Bikhchandani, founders of MakeMyTrip and naukri.com respectively, are both alumni of IIM Ahmedabad. Raghav Bahl, founder of TV18 and The Quint, has FMS as his alma-mater. And the hugely successful Entrepreneurial duo of Dishebh Gupta and Manish Swami, the Co-founders of Healthwave – a Medico-Diagnostic start-up with a Health Advisory USP achieving a turnover of over 2 crores inside 7 months of initiation are the alumni of IPS BUSINESS SCHOOL.

Manish and Dishebh stressed on the fact that all successful new ventures start as great ideas. But not all great ideas translate into successful ventures. An entrepreneur needs to possess a special mix of creative mindset, business acumen, and an innovative approach to turn the spark of an idea into a marketable proposition that investors will want to back. They added that in the case of Healthwave though they had approached and presented their idea to a couple of investors – they actually did not take any money from any investors – as their sole objective behind meeting investors was to test whether their idea was exciting and marketable – and not to get their start-up funded.

The entire venture was started with an investment of One Lac Rupees, which the co-founders themselves contributed from their savings, as Manish Swami was working with Bajaj Finserv as Area Manager which he had conjured as a PPO during his internship with the organization and Dishebh Gupta who is a University Rank-holder in MBA was involved with his Family Business.

The dynamic duo unanimously proclaimed that their MBA journey at IPS BUSINESS SCHOOL, was instrumental in developing the essential 'blend of skills' – required for an Entrepreneur. Whether you're looking to start your own venture or lead the innovation agenda from within your organization as an intrapreneur, you need to learn how to be entrepreneurial – this was their advice for their juniors.

The duo went to elucidate that IPS BUSINESS SCHOOL pedagogy build your core capacity of Design Thinking and Innovative Problem Solving, and the students are encouraged to nurture an idea for a new product or service, develop a value proposition, carry out customer discovery research, validate the product or service, and create a fully-fledged business proposal.

TWO WOMEN ENTREPRENEURS

BY MANASVI AND AKSHITA

MBA 2020-2022

After starting the MBA journey our brain started to explore more and our thought process also molded towards being an entrepreneur. At the beginning of our new venture, we had to face a couple of hurdles like investment funds, reaching our target customers, and many more. But both of us share the same interest towards innovative ideas we came to a decision of starting this venture named "Chocolaty manifestation". Operating a small business can be really tough especially for the ladies. But, we decided to come out of every barrier and to prove ourself that we are not far behind. The idea was to create a gift pack for different occasions and for that we have made the gift set in such a way it fits the different requirements of the customers for their loved ones. The name was chocolaty manifestation because as we all know, chocolate has always been an easy choice as a gift for every occasion. We are currently operating in Jaipur but with more resources we will soon have our presence in different cities as well. Now we are trying to explore more and gain more experience, through this, we learned to face the failures also and to meet the Target objective as well. This is our journey of Chocolaty manifestation.

Look Good. Feel Good!

"YOU WILL NEVER GET A SECOND CHANCE TO MAKE A FIRST IMPRESSION"

Your makeup tells people a lot about you before you even open your mouth. Most people will judge you within the first few seconds of meeting you often before you have even had a chance to greet them. The flirtatious & youthful beauty look you rock on your first date, for instance, might backfire during a job interview for that high powered position you've had your eye on. Though it may seem superficial, it's true our physical appearances communicate on our behalf. The way you present yourself speaks volumes to others and makes up a very important piece of how you are perceived. How one dresses, cleanliness, posture, demeanour: all of these things matter, and are easily observed traits by strangers. The success you will or won't have is heavily linked to the impressions you make on other people. How would you like to be described? Try selecting three words you would like your personal style to convey, then take some time to think about how those factors can support the message of your image, and how you can embody them. I have heard teenyboppers who want to turn into overnight celebrities are going for Botox and plastic surgery so that the media will feature them. I have even heard of thousands of makeover experts and stylists that are

Bake a Cake

with Pragya Tailor
(MBA 2020-2022)

Baking is done out of love in order to make our families and friends smile.

This was the exact motive when I started to bake. Last year, the pandemic brought the baker inside me out - the lockdown meant shutdown of the markets, even when we wanted cakes for our family occasions. Hence, on my parents' anniversary along with the birthdays of my family members,

I decided to bake cakes. Fortunately, they turned out to be delicious enough that my siblings started to boast about them to my friends. One day, finally, one

of my friends suggested creating an Instagram account and starting a small business through it, not only for the sake of earning money but also to allow people to celebrate the birthdays of their loved ones. I was lucky enough to be able to bake and celebrate but there were others who weren't able to cut cakes just because nobody knew how to. I felt it was the right time to step in, so I started an Instagram

account where people could send me messages to order cakes that would be delivered to their place. With time, as I learned more about management during my master's degree at IPS Business School, I became better at managing my business, starting from promoting my small business to delivering happiness at people's places. Just imagining that I'm helping people in celebrating their happy moments made me joyful. I'm glad to have found my inner talent and my love for baking, which led me to bring smiles to people's faces.

EDUCATION AFTER COVID-19

by Dr. Sumit Kumar Tata
(MBA 2020-2022)

The COVID-19 pandemic has changed our lives and particularly education forever. Schools and colleges have been shut down across the nation and for more than a year, everything has been put on hold or is happening on online platforms. The COVID-19 has resulted in schools shut all across the world. Globally, over 1.2 billion children are out of the classroom. As a result, education has changed dramatically, with the distinctive rise of e-learning, whereby teaching is undertaken remotely and on digital platforms. In response to significant demand, many online learning platforms are offering free access to their services, including platforms like BYJU'S, a Bangalore-based educational technology and online tutoring firm founded in 2011, which is now the world's most highly valued Ed-tech company. Since announcing free live classes on its Think and Learn app, BYJU'S has seen a 200% increase in the number of new students using its product, according to Mrinal Mohit, the company's Chief Operating Officer. For those who do have access to the right technology, there is evidence that learning online can be more effective in a number of ways. Some research shows that on average, students retain 25-60% more material when learning online compared to only 8-10% in a classroom. This is mostly due to the students being able to learn faster online; e-learning requires 40-60% less time to learn than in a traditional classroom setting because students can learn at their own pace, going back and re-reading, skipping, or accelerating through concepts as they choose.

DANCE AND ME

Virender Singh
MBA 2020-22

Dance has been one of the notable challenges that I've ever come across. Through my experiences and ups and downs, I am learning and understanding that dance creates a sense of freedom mentally, physically and spiritually. It has been the hidden language of my soul. It has been a medium through which I express my emotions and connect with myself more. It made me understand that practice is the best way to become good at anything and it makes me feel liberated. Dance is more than a sport for me, it's a passion. You have to work hard, and push yourself in order to be the best one. While performing on stage, it's all very adrenaline. It has been a notable challenges I've ever come across. Through my experiences, I am learning that dance creates a sense of freedom mentally, physically and spiritually. It has been the hidden language of my soul. Also, being a good speaker, makes me speak slowly, with pacing and a lot of attentiveness.

HOW TO FIND A SUITABLE INVESTMENT FUND FOR YOU?

- Funds are managed by appointed fund managers (check their previous year's performance). Sometimes funds are based on a particular theme, in that case, keep checking seasonally which stocks are being bought by your fund manager.
- Keep checking on a yearly basis that your fund return is higher than benchmark returns after the expense ratio of the fund (NIFTY 50)
- You must know your plan with the fund, then only you can select it and hold it for a longer period.
- Select only trusted fund house with better risk and liquidity management and client satisfaction rating.
- Buy directly from the fund manager's website or office and not from other brokers that can help you in saving big amounts for the long run in terms of expense ratio.

Four mathematical formulas are given below, helpful in finding better funds.

- Standard Deviation
- Beta
- Sharpe Ratio
- Treynor Ratio

- **Standard Deviation:** Standard deviation simply quantifies how much a series of numbers, such as fund returns varies around its mean, or average. The more a fund's return fluctuates, the greater its standard deviation.
- **Beta:** A beta is a statistical tool, which gives you an idea of how a fund will move in relation to the markets. Meaning if the market move 10 rupees then beta can be used to calculate, how much this fund can appreciate or depreciate.
- **Sharpe ratio:** The Sharpe ratio uses standard deviation to measure a fund's risk-adjusted returns. The higher a fund's share ratio, the better a fund's returns towards the risk associated with that fund. Because it uses standard deviation, the Sharpe ratio can be used to compare risk-adjusted returns across all fund categories.
- **Treynor ratio:** - Treynor ratio shows the risk-adjusted performance of the fund. Here the denominator is the beta of the portfolio. Thus, it takes into account the systematic risk of the portfolio. A fund with a higher Treynor ratio implies that the fund has a better risk-adjusted return than that of another fund with a lower Treynor ratio.

सपना

The Poetry

नहीं बनाया किसी ने टाटा, बिरला , अम्बानी,
खुद ही बने है सब अपने सपनों के सौदागर।

राह नहीं थी बनी बनाई, ना ही है कोई बड़ा जानी,
सब ने करी है कड़ी मेहनत, फिर है मेहनत रंग लाई।

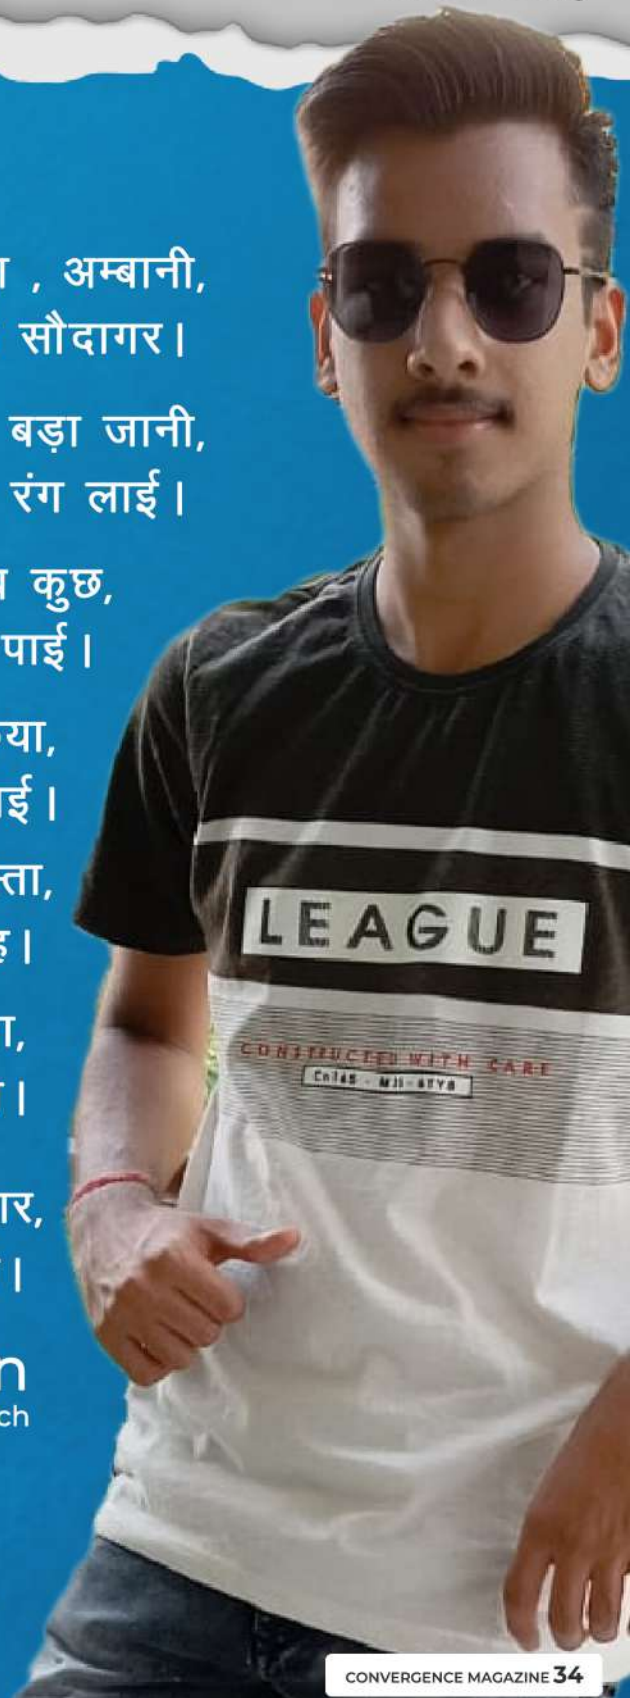

एक पल में नहीं बनता सब कुछ,
पल पल मेहनत करके सब ने मंजिल है पाई।

कल क्या होगा न ध्यान दिया, बस काम किया,
रह में मुश्किल उनके भी आई।
मुश्किल था मंजिल को पाना, बना दिया रास्ता,
चल दिए बिना किए किसी की परवाह।

सुना है उन्होंने भी तना,
लकिन जूनून चढ़ा था कुछ पाने का।

तोड़ दिया सब का भ्रम, कर दिया सपनों को साकार,
तना देने वालो ने ही हसकर सत्कार किया।

UNIFORM CIVIL CODE

WHAT IS UNIFORM CIVIL CODE?

UCC IS A BILL WHICH LOOK EVERY CITIZEN OF THE COUNTRY INDIA EQUALLY WITH UNIFORMITY. IT IS A BILL WHICH WAS PART OF BJP'S MANIFESTO IN 2019, AND IT NOW IS A HOT TOPIC. UCC BILL IS A GREAT GESTURE TOWARDS PEACE BETWEEN DIFFERENT RELIGIONS AND WILL ALSO HELP IN GIVING FEMALE EQUAL RIGHTS. AS WE KNOW OUR COUNTRY INDIA IS GOVERNED BY OUR CONSTITUTION, WE THE PEOPLE OF INDIA ALSO ARE BEING GOVERNED BY THE SAME CONSTITUTION BUT NOT ALL ISSUES, MUSLIMS OUR COUNTRY ARE GOVERNED BY PERSONAL BOARD LAWS, SAME WITH CHRISTIANS.

TO BREAK THIS BARRIER OF INEQUALITY HERE IS THE BILL WHICH GOVERNS EVERY CITIZEN WITH SAME LAW, THERE ARE SOME VERY PECULIAR LAWS IN EVERY

RELIGION WHICH DOES INJUSTICE TO THEIR SET OF PEOPLE WHO ARE GOVERNED BY THEIR LAWS. TO STOP THESE PRACTICES OF INJUSTICE IS THIS BILL UCC.

SOME OF THE MAJOR ISSUES TO BE ADDRESSED IN SOCIETY ARE FOLLOWS:
UNIFORMITY IN DIVORCE LAWS: NO EQUAL GROUNDS ON DIVORCE IS REPEATEDLY SEEN IN CURRENT CENTURY TOO, WE HAVE CHRISTIAN WOMEN UNABLE TO FILE FOR A DIVORCE UNTIL A TWO YEAR MARRIAGE BEING COMPLETED, AND THEN WE SAW TRIPLE TALAQ OR TALAQ AE BIDDAT WHICH IS NOW ABOLISHED VIA BILL PASSED AND MADE ILLEGAL TO DO SO.
UNIFORM AGE OF MARRIAGE: WHEN THERE IS A LAW AGAINST UNDERAGE MARRIAGE, THERE STILL LIES A HUGE PART OF POPULATION WHICH DOESN'T FALL UNDER THIS CATEGORY WHICH IS EVERY RELIGION BUT HINDUS, WHICH MEANS THERE IS NO MINIMUM CRITERIA FOR OTHER RELIGION FOR MARRIAGE, WE OBSERVE IN MUSLIM RELIGION THAT A GIRLS CAN BE MARRIED AS SOON AS PUBERTY HIT HER

UNIFORM MAINTENANCE ALIMONY: WHEN A FEMALE IN THIS COUNTRY TAKES DIVORCE THERE HAS TO BE MAINTENANCE ALIMONY TO SAFE GUARD HER FUTURE FOR SOME TIME AND MAKE HERE LIVING BUT WHAT DO WE SEE THAT IN HINDUS THE TIME PERIOD IS MUCH MORE THEN THAT OF MUSLIMS WHICH IS 3 MONTHS AS WE HAVE SEEN IN SHAHBANO CASE 1985 DEMANDING MAINTENANCE ALIMONY IN COURT BECAUSE SHE WAS A MUSLIM WOMEN.

UNIFORM ADOPTION GUARDIANSHIP WHEN IN SOCIETY EVERY OTHER WOMEN HAS TO HAVE RIGHT TO ADOPT A CHILD ONLY HINDU WOMEN CAN DO SO BUT NOT ANY OTHER WOMEN. THIS HOLDS

PARSI, MUSLIM AND CHRISTIAN WOMEN TO ADOPT CHILD. **UNIFORM SUCCESSION INHERITANCE:** SAME AS ABOVE WE HAVE DIFFERENCES IN RULES FOR RIGHT IN PROPERTY INHERITANCE.

Bhojpuri Cinema

BHOJPURI CINEMA IS THE INDIAN FILMMAKING INDUSTRY OF BHOJPURI-LANGUAGE BASED IN BIHAR AND UTTAR PRADESH, INDIA.

Bhojpuri movie industry popularly known as BHOJIWOOD is a burgeoning behemoth, a Rs 2000 crore (and growing) industry that is fast moving past the likes of A Listers like Ravi Kishen, Dinesh Lal Yadav "Nirahua" and Manoj Tiwari, and breaking fresh ground and creating new milestones.

The first Bhojpuri talkie film, Ganga Maiyya Tohe Piyari Chadhaibo, was released in 1963 by Vishwanath Shahabadi. The 80's saw the release of many notable as well as run-of-the-mill Bhojpuri films like Bitia Bhail Sayan, Chandwa ke take Chakor, Hamar Bhauji, Ganga Kinare Mora Gaon and Sampurna Tirth Yatra. Bhojpuri cinema has grown in recent years. The Bhojpuri film industry is now a ₹2000 crore industry.

Bhojpuri movies are seen across various parts of North America, Europe, and Asia where second and third generation migrants still speak the language, as well as in Guyana, Trinidad and Tobago, Suriname, Fiji, Mauritius, and South Africa, which has a large Bhojpuri population.

Overview:

Bhojpuri, often considered a dialect of Hindi, originates in Western Bihar and Eastern Uttar Pradesh in Northern India. Speakers of it and its creoles are found in many parts of the world, including United States, United Kingdom, Fiji, Guyana, Mauritius, South Africa, Suriname, and Trinidad and Tobago, and Netherlands. During the late 1800s and early 1900s, many colonizers faced labor shortages due to the abolition of slavery; thus, they imported many Indians, many from Bhojpuri-speaking regions, as indentured servants to labor on plantations. Today, some 200 million people in the Caribbean, Oceania, and North America who speak Bhojpuri as a native or second language.
